186.4 acres will be irrigated within proposed Pivot #5 through Pivot #8, however a larger place of use is requested at this time since the acreage within each pivot is approximate and the locations of the pivots are not exact. The NE $\frac{1}{4}$ of Section 25 is included to facilitate commingling of water with future changes to Well #5 to accommodate Pivot #4.

Pivots 4, 5, 6, 7, & 8 are to be connected via pipeline, and served by Permittee's Wells #5, #6, and #8. The wells currently being drilled to supply these 186.4 acres may not produce sufficient water to meet production requirements. This application seeks to move some of the water currently in Well #6 to allow for an additional well to meet the needs for the commingled pivot irrigation system.

16. Miscellaneous remarks:

The accompanying map supports the existing and proposed place of use.
